

Jackie Woolf's BEGINNING DRAWING

WWW.JACKIEWOOLF.COM

Drawing is foundational to all of my art classes. It teaches you to really look at what you are seeing. I make use of line in all my work, and also use drawing to some extent. In this class we will all work on a still life I set up or a black and white photo. Everyone will work at their level with pencil, and the work can be detailed or simple as desired. As a beginning class there will be lots of discovery.
