LEARNING TO DRAW WHIMSICAL FACES

IMAGINARYTRIPS.COM

Drawing Whimsical Faces has never been easier when you learn via the unique template system I've created. Learn how to draw eyes, noses, mouths, overall face shapes and different hair styles as well as how to change up the styles with a few techniques and tricks! With the template system, there will be no end to the different faces you can create just by varying the combinations of facial features and before long, you'll leave the templates behind to create your own style of faces! This class will focus on drawing female faces only and will not utilize anime drawing techniques.

Please Note:

This class is a pre-requisite for the "Painting A Whimsical Mermaid"

Class that will be held on October 14th unless you are experienced at drawing faces. You are not required to take both classes if you wish to only learn to draw whimsical faces.
