Watercolor Workshops

Keeton's Office & Art Supply
817 Manatee Avenue W
Bradenton, FL 34205

1.800.833.4735

Phil will provide:

Color photo reference to paint from

Full-size drawing (10 x 14 inches) for you to transfer to your watercolor paper

Materials list:

- (1) Ball point pen (blue or red works best)
- (1) Full sheet (22 x 30 inches) Arches 140 lb Cold Press or equivalent. Phil will demonstrate how to tear your paper into quarter sheets to create a deckled edge.
- (1) 2 inch flat watercolor brush
- (1) Rigger brush
- (1) Number 8 round watercolor brush
- (1) small, round brush for details
- (1) roll masking tape
- (1) 12 inch wooden ruler or wooden strait edge. Metal and plastic rulers are too flimsy for the technique Phil will teach.
- (1) Rigid sheet of water-resistant material that you can tape your painting to. Phil uses a sheet of 18 x 24 inch corrugated plastic sign material.
- (1) Sheet of Sally's Wax Free artist's graphite paper
- (2) containers for rinse water (Phil uses empty 32 oz yogurt containers)

Professional quality watercolor pigments

Phil prefers Windsor and Newton or Paul Jackson pigments, but any quality brand will be fine.

Bring your preferred colors, but be sure to have as a minimum:

- **Pthalo Blue or comparable**
- **Alizarin Crimson or comparable**
- **Lemon Yellow or comparable**
- **Indigo or comparable**

All of the materials needed are available from Keeton's. Please arrive early to make any needed purchases. The workshop will start promptly at 9:00 am.
