

Kathleen Durdin's

LOOSENING UP AND
SEEING COLOR EVERYWHERE

WWW.KATHYDURDIN.COM

Attendees will work on creating focus, simplifying and using the photograph as a starting point to explore color and lose edges. We will work on finding centers of interest and focusing our detail in the area of the center of interest.

We will also work on creating color unity, painting large areas of light and dark, backgrounds and losing edges and using color to create interest and emotion. Attendees will explore color. Color creates emotion and can focus the viewer. Deconstructed color and unexpected colors excite and engage the viewer.

SUPPLY LIST

Predraw 1 image on whatever watercolor paper you use, no bigger than a half sheet. The image needs to have large shapes. Blow up your reference image to 8 1/2" x 11" or larger. be sure to use a light pencil or water soluble media that will disappear. If you want to preserve whites, make sure that you have applied your masking fluid in advance. Bring extra pieces of scrap paper.

Paints:

Yellows - Cool: Hansa Yellow light or medium, Aureolin. Warm: New Gamboge, Hansa yellow deep

Reds - Cool: Permanent Rose (any brand). Warm: Scarlet lake or Quinacridone coral

Blues - Cool: Ultramarine. Warm: Cerulean or Manganese (Holbein).

Neutral: Cobalt

Brushes:

Round sables: 18, 14, 12, 10, 8, 6, 4, 2, 1, 0.

2" flat sable

Large Isabey squirrel mop

The largest round you have. Your brushes should hold a lot of water and have a lot of give.
